## OBJECTIVE

---

Creative UI/UX Designer and Information Technology student with experience in wireframing, prototyping, and user research. Passionate about crafting intuitive, user-centered digital experiences and transforming ideas into elegant interfaces. Seeking opportunities to apply design thinking to real-world challenges.

## EDUCATION

---

### Bachelor of Engineering in Information Technology

2022-2026

*MET Institute of Engineering, Nashik*

## SKILLS

---

**Design Tools** Figma, Canva, Adobe XD

**UI/UX Skills** Wireframing, Prototyping, User Flow, Visual Design, User Research

**Soft Skills** Leadership, Creative Thinking, Problem Solving, Collaboration, Empathy, User-Centric Mindset

## EXPERIENCE

---

### Graphic Design Intern

Jan 2025 – Feb 2025

Optifyx Technology .PVT .LTD

- Designed marketing assets, visual content, and branding materials aligned with company goals, contributing to the team's creative output.
- Utilized Canva and Figma to deliver high-quality graphics under strict real-world deadlines.
- Collaborated with the technical team to ensure design adaptability and consistency across various platforms.

## PROJECTS

---

**Personal Finance Tracker App** Designed and prototyped a mobile finance tracker to help users manage daily expenses and monitor spending patterns. Implemented intuitive UI screens including dashboards, transaction history, and goal trackers using low to high-fidelity wireframes.

**Academia Drive - Brand Identity** Created a complete visual identity for an educational institute, including logo, business cards, and promotional assets. Focused on clean aesthetics and consistent branding to communicate trust and growth.

**Marvel Edition Ad Posters** Designed dynamic ad posters for a fictional product line, focusing on color theory and hero-based aesthetics.

## CERTIFICATIONS

---

- UI/UX for Beginners – Great Learning (June 2024)
- UI/UX Design – TuteDude (Pursuing)

## LEADERSHIP

---

**Team Lead & UI/UX Designer — Intelligent Localization and Severity Estimation of Vehicle Damages**

- Spearheading a cross-functional team of four, coordinating the efforts of one Frontend and two Backend developers while serving as the Lead UI/UX Designer.
- Orchestrating the end-to-end product lifecycle, aligning design specifications with technical constraints and ensuring seamless developer handoffs to meet critical project milestones.
